Sleep Research Society®

2017 Sleep Research Society Trainee Development Suite

The SRS Trainee Development Suite offers trainee members an opportunity to network with other trainees, experienced researchers, and mentors in sleep and circadian science throughout SLEEP 2017. The Suite is open during the meeting, with the exception of breakfast and lunch sessions, below, which are ticketed events. These ticketed sessions are free, but those who pre-registered and hold a ticket have priority.
